

TOUGH

& Fast-Setting!

▼ **Fastest Drying :**

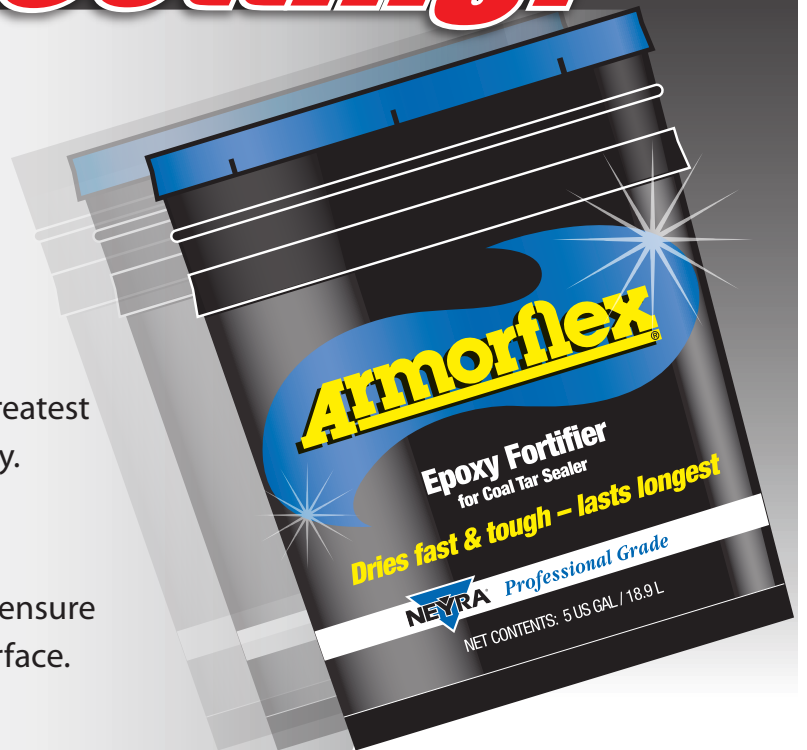

Reduces drying time by more than 50%.
Improves curing time, even in the shade.

▼ **Toughest Coating :**

An epoxy tough fortifier that ensures the greatest durability and improves material workability.

▼ **Longest Lasting :**

Improves bonding and sand suspension to ensure an even-textured, skid-resistant, durable surface.

Deliver Superior Sealcoating Performance With Fast Dry Technology

Fast dry technology helps you seal and stripe quicker and be ready for traffic ASAP.

Tough coating prevents sand rollout, scuffing and power steering marks.

Save money by reducing your labor and travel costs with the fastest drying coal tar additive.

Enhances chemical resistance to gasoline, oils and salts.

Superior sand suspension allows you to apply a beautiful, rich black, uniform surface.

Compatibility ensured since Neyra Industries manufactures both sealer & additive.

Conveniently available in a variety of container sizes to fit your needs.

Time Tested. Job Proven.
